Summary

Results-driven Data Analytics professional with 5+ years of hands-on experience transforming complex datasets into strategic business insights. Proven expertise in building end-to-end data pipelines, automating reporting systems, and driving data-led decision-making across HR, manufacturing, and public sectors. Adept at Excel, Power BI, SQL. Committed to continuous learning, knowledge sharing, and delivering results with responsibility and efficiency.

Work experience

Data Analytics & Reporting Expert
Azerconnect Group — Jan 2026 - Present

- Developed multi-layered interactive Power BI dashboards to visualize key HR metrics and trends; provided real-time data support to senior management for strategic decision-making
- Fully automated manual reporting processes, significantly reducing workload, minimizing the risk of human error, and accelerating report delivery timelines
- Designed and implemented a structured corporate Excel training program to enhance employees' analytical capabilities; considerably improved team data literacy and overall operational efficiency

HR Data and Digitalization Senior Specialist
Azerconnect Group — Jan 2025 - Jan 2026

- Conducted comprehensive auditing, analysis, and cleansing of large-scale HR datasets using internal tools; established a reliable data environment by ensuring accuracy, consistency, and integrity across multiple systems
- Built and maintained systematic data quality monitoring processes; proactively identified and resolved potential discrepancies before they could impact business decisions and operational workflows

Human Resources Analyst
Avrora Group — Mar 2024 - Jan 2025

- Utilized Python and internal tools to inspect, analyze, and clean historical data for accuracy and consistency, eliminating data issues
- Regularly verifying user-entered data for accuracy to ensure continuous data quality.
- Creating reports using Power BI.
- Conducted training sessions on Microsoft Excel programs to improve employee knowledge, skills and performance.

Data Analytics Instructor
HANDEX Training Center — Jan 2024 - Present

- Delivered hands-on Excel training covering advanced functions, pivot tables, and data analysis techniques to professional learners
- Guided participants in designing interactive dashboards and structured analytical reports for real-world business use cases
- Fostered both technical proficiency and analytical thinking, equipping students with practical skills applicable to their professional roles
